Description

PAIR OF CARBON WHEELS VISION METRON 55 SL

This handcrafted wheel leverages Vision's carbon manufacturing know-how combined with cutting-edge manufacturing processes.

This extremely aerodynamic and stable wheel was developed through extensive CFD analysis and wind tunnel testing.

The preload reduction system (PRA) offers greater smoothness to the wheel and longer life than standard.

Metron 55 SL is Vision's Aero wheelset with carbon rim chosen by numerous professional teams. Thanks to their lightness and aerodynamic attitude (55mm rim height), Metron 55 SL is a protagonist on the stones of the Tour of Flanders and Paris-Roubaix, as well as in the mixed and flat stages of the Grand Tours.

TUBELESS CLINCHER

Characteristics

- Carbon rim
- Tubeless ready / clincher
- Profile: 55mm
- PRA hubs for straight pull spokes
- 6 cartridge bearings (2F + 4R)
- 2:1 aerodynamic flat spokes
- ABS self-locking nipples
- Made entirely by hand
- Includes QR-93, brake pads, TL valve and tape, spoke guard and wheel bag
- Includes Shimano 10-11S / SRAM XDR aluminum body
- Campagnolo 10-11S body available separately

Specifications

Guy	Wheels
Technology	ABS, LOC, ABS, LOC, Tubeless Ready
Series	METRON
Discipline	ROAD, TRIATHLON, TIME TRIAL, CYCLOCROSS
Material	Carbon
Weight (g)	1580, No
Transmission compatibility	Shimano 10/11S, Sram 10/11S, FSA 11S

TUBULAR

Characteristics

- Carbon rim
- Tubular
- Profile: 55mm
- PRA hubs for straight pull spokes
- 6 cartridge bearings (2F + 4R)
- 2:1 aerodynamic flat spokes (16F + 21R)
- ABS self-locking nipples
- Made entirely by hand
- Includes QR-93, brake pads, valve extenders and wheel bag
- Includes Shimano 10-11S / SRAM XDR aluminum body
- Campagnolo 10-11S body available separately
