Description
ORCA TRANSITION BACKPACK

If you are looking for a backpack in which you can carry everything you need for your competitions or training sessions, this is the accessory for you. This is an adjustable backpack, which thanks to its adjustable capacity system allows you to increase its capacity so that it can be used in all purposes. Thanks to its new flat base, the backpack remains upright when placed on a surface, perfect for transitions and changing rooms. It has a helmet pocket and a separate pocket at the bottom, ideal for carrying a wetsuit or wet clothing. Furthermore, its design allows ventilation in the back area, so it can be used comfortably during training sessions or competitions. This is the ideal running and training companion you've been waiting for.

MATERIAL

Main fabric: 100% polyester; Side panels: 100% nylon.

COMFORT

The padded shoulder straps and breathable backing prevent direct contact with the backpack, reducing sweat.

CAPACITY

In addition to the 50 liter capacity, it consists of several pockets in which you can keep everything you need separate. Your personal items are safe, thanks to its covered compartments.
