Description

SWIMMING PADDLES ARENA VORTEX EVOLUTION HAND PADDLE 95232

This exclusive arena product was created to meet the needs of expert swimmers during the toughest training sessions. Thanks to their ergonomic shape, these swimming paddles adapt perfectly to the hands, offering a natural, safe and comfortable grip. The straps are adjustable, ensuring an optimal fit. They also have beveled edges to prevent friction or annoying rubbing at the wrists.

The balanced shape of the blades, neither too flat nor excessively rounded, increases their resistance to water. The swimmer's muscles are thus subjected to greater effort, to compete in increasingly intense and demanding training sessions. The Vortex Evolution paddles are attentive to comfort: once worn, the sensation will be that of swimming with bare hands.
