Description

PAIR OF CARBON WHEELS VISION METRON 40 SL

This handcrafted wheel leverages Vision's carbon manufacturing know-how combined with cutting-edge manufacturing processes.

This extremely aerodynamic and stable wheel was developed through extensive CFD analysis and wind tunnel testing.

The preload reduction system (PRA) offers greater smoothness to the wheel and longer life than standard.

Metron is the fastest and most aerodynamic Vision range. You will find Metron components in top-level road and triathlon competitions, guaranteeing athletes an important competitive advantage. Each Metron wheel is available in both rim brake and disc brake versions, as well as in the Clincher / TL and Tubular versions, to meet the needs of every cyclist.

TUBULAR

Characteristics

- Carbon rim
- Tubular
- Profile: 40mm
- PRA hubs for straight pull spokes
- 6 cartridge bearings (2F + 4R)
- 2:1 aerodynamic flat spokes (16F / 21R)
- ABS self-locking nipples
- Made entirely by hand
- Includes QR-93, brake pads, valve extenders and wheel bag
- Includes Shimano 10-11S / SRAM XDR aluminum body
- Campagnolo 10-11S body available separately

710-000819603D	VISION WH Set METRON40 SL RB Tub XDR A0

Specifications

Guy	Wheels
Technology	ABS, LOC
Series	METRON
Discipline	ROAD, GRAVEL, CYCLOCROSS
Material	Carbon
Weight (g)	1350
Transmission compatibility	Shimano 10/11S, Sram 10/11S, FSA 11S

TUBELESS CLINCHER

Characteristics

- Carbon rim
- Tubeless ready / clincher
- Profile: 40mm
- PRA hubs for straight pull spokes
- 6 cartridge bearings (2F + 4R)
- 2:1 aerodynamic flat spokes (16F / 21R)
- ABS self-locking nipples
- Made entirely by hand
- Includes QR-93, brake pads, TL valve and tape, spoke guard and wheel bag
- Includes Shimano 10-11S / SRAM XDR aluminum body
- Campagnolo 10-11S body available separately
